

Notice of the Publication of "Tamron Integrated Report 2026" (English Version)

Tamron Co., Ltd. (the "Company") announces that, following the release of the Japanese version in June, it has published the English version of the "Tamron Integrated Report 2026" and made it available today on the Company's website. The Integrated Report serves as an essential communication tool for our shareholders, investors, and all other stakeholders.

Centered around our Long-term Vision 2035, "Capture, Measure, Connect—Creating a Healthier Future for People and Nature" (formulated in February this year), this report comprehensively covers our environmental, social, and economic value creation processes, business model, and strategies for technology, business, intellectual property, and human resources. It also highlights our ESG/sustainability strategy and corporate governance structure. We hope this report will serve as a helpful guide for our stakeholders to deepen their understanding of Tamron's sustainability and growth potential.

We remain committed to enhancing information disclosure and fostering constructive dialogue with the market to further increase our corporate value.
